This manual is intended to provide instruction to users of the OneCallAccess program on ticket actions.

The information contained in this manual includes a description of each retransmit.

Selective Ticket Actions

Retransmitting a Ticket

A ticket may be retransmitted because of marking issues only at this time. Retransmitting a ticket does not change the ticket number. Retransmitting a ticket results in an update to the version or revision number. The revision number is found after the dash at the end of the ticket number. An example of an original ticket number is 2021112000003-000. No revision exists on an original ticket, so the revision number is -000. The first revision would result in a change to the version or revision number 202111200003-001.

A revision number must be entered if the retransmit is for a NOW ticket, meaning that the crew is on site or en route for Unmarked Facilities or Additional Assistance or if specific staking information is entered. A revision number will be entered as -001, -002 and so on depending on what revision number this is to the ticket. To determine which revision number should be entered, look at the last three digits of the ticket number after the dash and the revision number entered will be the following sequence. For example, if the ticket number ends in -000 then the revision number entered will be -001.

Tickets with erroneous information may not be retransmitted to correct the issue. To correct an error, the ticket is canceled and replaced. A ticket may be canceled up to the work legal start date on the ticket.

Updating the field contact information or adding details to aid the locator in finding or accessing the site is acceptable when retransmitting a ticket. This information may include driving instructions, an access point to the dig site, or a gate code. Updates to the type of work, activity, or work location are not acceptable. These changes would require a replacement ticket.

Positive Response must be reviewed prior to transmitting a ticket for Unmarked Facilities, Destroyed Markings, or Additional Assistance. Specify which facility owners/operators are required to respond to the request based on positive response postings and field conditions. It is not acceptable to request a response from all facility owners/operators as a replacement for checking positive response.

A ticket may be retransmitted after the work legal start date of the most recent revision of the ticket. The work legal start date can be found on the ticket.

Destroyed Markings

When markings are removed, destroyed, or are no longer visible or reliable, a ticket may be retransmitted for destroyed markings. Facility owners are required to respond within 24 hours on business days.

WHO: All Users of the system

WHEN: Between the Work Legal Start Date up to 24 business hours before the ticket expiration date/time.

PROCEDURES

- 1) If the ticket is one of the last five tickets placed, click on the ticket under Recent History on the Home page of OCA to display the ticket.
- 2) Click History to search for the ticket if it is not found in recent history.

Selective Ticket Actions

- 3) Enter the ticket number with the most recent revision number, and the date (or date range) the most recent revision of the ticket was placed.

Member Response

Only the Station Codes selected on the Station Codes List will be notified of the request, Station Codes not selected will not be notified of this request. Once a retransmit has been submitted on a ticket, the ticket details will appear showing all information included on the ticket and the members that are notified of the request.

In the ticket details under Affected Members, the Station Codes selected from the Station Codes list will show a status of "Manual Retransmit". If a member shows the status of "Manual Retransmit", this means that they were notified and are required to respond to this request. The Station Codes not selected in the Station Codes list will have a status of "Response Not Requested" and these members are not notified and not required to respond to this request.

Manual Retransmit
If an end user has selected a specific Station Code for delivery of a Ticket Action.
This means the Station Code will be triggered and its associated subscriptions will manually deliver this Ticket Action / Revision.

Response Not Requested
If an end user does NOT select a Station Code for delivery of a Ticket Action.
This means that particular Station Code will NOT receive a transmission for this Ticket Action / Revision

Selective Ticket Actions

On the Caller Confirmation Sheet, under Utility Owner Details, the Station Codes selected from the Station Codes list, will show a status of "Notification Sent". If a member shows the status of "Notification Sent", this means that they were notified and are required to respond to this request. The Station Codes not selected in the Station Codes list will have a status of "Response Not Requested" and these members are not notified and not required to respond to this request.

A new "Status" has been introduced for those Station Codes NOT selected

• If you need assistance, please contact Web Ticket Support at webticketdept@missdig811.org

Selective Ticket Actions

Copy

The copy feature duplicates ticket information from a chosen ticket to make a new one. All fields may be edited.

Who: All users of the system

When: A ticket may be copied any time after the original ticket was placed.

Procedures

- 1) If the ticket is one of the last five tickets placed, click on the ticket under Recent History on the Home page of OCA to display the ticket.
- 2) Click History to search for the ticket if it is not found in recent history.
- 3) Enter the reference ticket number, including the revision-000, and the date (or date range) the reference ticket was placed.
- 4) Click search.
- 5) Click on the ticket to display the ticket details.
- 6) Click Actions on the upper right side of the page.
- 7) Choose Copy – ticket will open.
- 8) Edit appropriate fields.
- 9) **The new ticket does not reference the copied ticket.** If the user would like to reference the copied ticket, enter the reference ticket number in the remarks field.

Remarks - Additional Details

Previous ticket 2021103100151

371 characters left

- 10) Click Submit.
- 11) Ticket details will display. A confirmation email is sent.

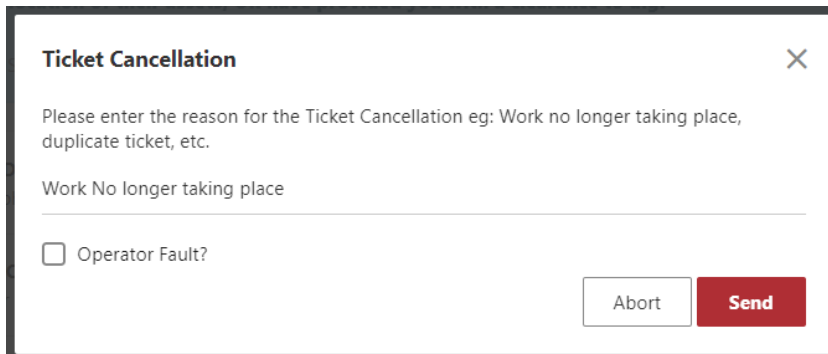

Cancel

A ticket may be canceled because work is no longer taking place, there is an error on the ticket or because there is a duplicate ticket for the job.

Who: All users of the system

When: Up to the Work Legal Start Date on the ticket

- 1) If the ticket is one of the last five tickets placed, click on the ticket under Recent History on the Home page of OCA to display the ticket.
- 2) Click History to search for the ticket if it is not found in recent history.
- 3) Enter the ticket number, including the revision number -000, and the date (or date range) the ticket was placed.
- 4) Click search.
- 5) Click on the ticket to display the ticket details.
- 6) Click Actions on the upper right side of the page.
- 7) Choose Cancel – A pop up box will display.
- 8) Enter the reason for the cancellation.
- 9) Click Send.

The screenshot shows a pop-up window titled "Ticket Cancellation" with a close button (X) in the top right corner. The text inside the window reads: "Please enter the reason for the Ticket Cancellation eg: Work no longer taking place, duplicate ticket, etc." Below this is a text input field containing "Work No longer taking place". Underneath the input field is a checkbox labeled "Operator Fault?". At the bottom right of the window are two buttons: "Abort" and "Send".

- 10) The ticket details will display. The ticket status is Cancelled.

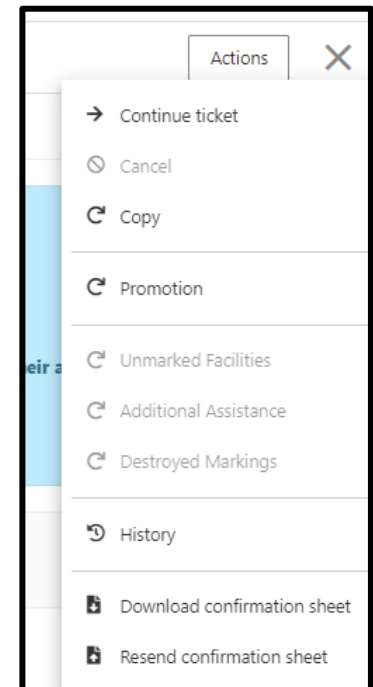

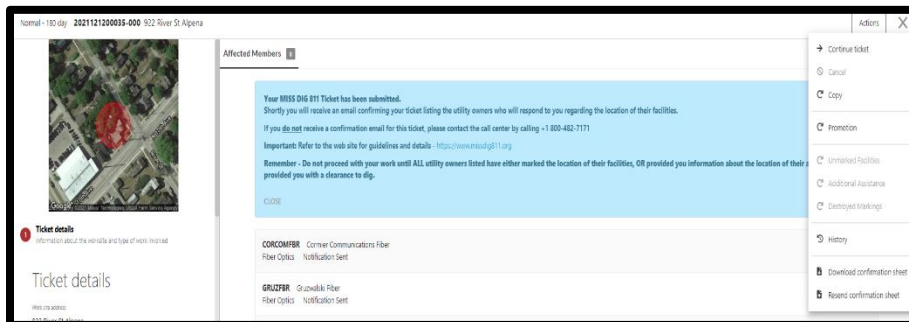

Continue

When a job is too large to fit into a single ticket, the continue ticket feature makes it easy to create multiple tickets. The work polygon from the chosen ticket is visible on the map so the user can easily create a new polygon that picks up where the other ticket left off. The original ticket number is referenced on the continued ticket once submitted.

Who: All users of the system

When: Anytime

- 1) Continue ticket may be chosen immediately after a ticket is placed. When the ticket summary page appears upon submitting a ticket, click Actions from the upper right side of the page.
- 2) Click Continue Ticket.
 - a. If the Continue ticket feature is not chosen upon submitting a ticket, the reference ticket can be found in Recent History or History. If the ticket is one of the last five tickets placed, click on the ticket under Recent History on the Home page of OCA to display the ticket.
 - b. Click History to search for the ticket if it is not found in recent history.
 - c. Enter the ticket number, including the revision number -000, and the date (or date range) the ticket was placed.
 - d. Click search.
 - e. Click on the ticket to display the ticket details.
 - f. Click Actions on the upper right side of the page.
 - g. Click Continue Ticket

- 3) Review ticket details and adjust as needed.
- 4) Click Next to go to section 2, Dig Site Location.
 - a. The polygon from the reference ticket is visible. Create a polygon that covers the next portion of the project.
 - b. Click Next.
- 5) Enter the location information in the Confirm Dig Site. This information is included on the ticket.
- 6) Click Next.
- 7) Enter Remarks, if needed.
- 8) Check the agreement boxes.

Click Submit. The previous ticket is referenced on the new ticket.

Selective Ticket Actions

enerated by the previous response will be copied to the new revision.
