Trevor Westbrook is the Lead Damage Prevention Specialist at SEMCO Energy Gas Company, bringing more than 15 years of experience in the gas utility industry. Throughout his career, he has held leadership roles in claims management, investigations, and public safety, where he has played a critical role in advancing safety, compliance, and emergency response initiatives.

In his current role, Trevor leads damage prevention strategies focused on protecting critical infrastructure and promoting industry best practices across SEMCO Energy's service territory. He is recognized for his collaborative approach and commitment to continuous improvement in damage prevention programs.

In addition to his professional responsibilities, Trevor serves as Secretary of the Michigan Damage Prevention Board, working alongside industry partners and stakeholders to reduce pipeline damages and enhance public safety throughout the state of Michigan.
