Adam Zeciri

Founder, Locating Dynamics

Advanced Technology in Utility Locating

Tues. 2/3

10:00 a.m.

Banquet Rooms 5 & 6

With over 25 years of utility locating and mapping experience on all utility types for public, private and SUE, Adam has trained and certified utility locators from the United States, Puerto Rico, Canada, Australia, India, England, France, Belgium, Hungary, Italy, Poland, South America, Israel and China. As a CTT+ Certified Technical Trainer, OQ Evaluator and utility locating technologies SME, he enjoys helping others acquire and hone their professional skills through adult education and training. Adam's wide range of field experience includes locating and mapping utilities in busy downtown areas including San Francisco, Sacramento, Chicago's central business district, the Chicago Transit Authority underground train tunnel systems, national laboratories, military bases, oil fields, pipelines, refineries, chemical plants, water treatment plants, sewer treatment plants, steel mills, power plants, electric substations and backup battery stations, solar farms, wind farms, hospitals, museums, universities, corporate campuses, high rises and various other urban and rural settings. His focus is to aid in the continuous improvement of myself and those he interacts with.
