Professional Summary

Dynamic, results-oriented telecom executive with 25+ years of experience driving OSP construction, network integration, network expansion, customer satisfaction, and operational excellence across leading telecom providers. Proven ability to lead large-scale infrastructure projects, manage cross-functional teams, and align construction timelines with aggressive growth goals. Combining an entrepreneurial mindset with a proven track record of driving growth and operational excellence, I am seeking to partner with an innovative, forward-thinking organization to deliver competitive advantages, accelerate market share expansion, and achieve transformative results.

Core Competencies

Cross-Functional Team	Market Development	SLA/KPI Development
Leadership	Team Building and Talent	Vendor & Customer relations
CAPEX/OPEX Budget	Development	Process Optimization
Management	Construction Management	Strategic Planning

Professional Accomplishments

- Led the expansion and maintenance of Everstream fiber optic network across Missouri, Michigan, Indiana and Southern Illinois, building over 3,500 miles of fibers.
- Develop and manage regional CAPEX and OPEX budget(s) in excess of \$30M dollars, outlined capital project estimation guidelines, perform quarterly ROI review on sold projects and expansion spend.
- Focal point for customer relationships with T-Mobile, Dish Network, federal government agencies, large healthcare providers, financial institutions and large enterprise customers.
- Provide cross-functional leadership across Sales, Product, Engineering, Operations, and Customer Success.
- Build and develop teams of Field Service Managers, OSP Engineers, ISP Technicians, Field Service Technicians, IT, Network Engineering and Permit Coordinators.
- Collaborate with executive leadership, material and technology vendors to reduce costs and delivery time(s) and streamline network deployment, establish SLAs and KPI metrics.
- Built strategic partnerships with construction, engineering, splicing and material contractors in the Midwest.
- Missouri 811 Board Member – Policy and Finance committee - 2020-2025

Professional Experience

VP, Operations, Northern Lights Locating, 5/2025 – Present.

- Led 5 state expansion following Brightspeed contract win, staffing 80 employees in 90 days.
- Reorganized 12 state footprint to optimize Area Managers and Area Supervisors to drive efficiency and oversight of our 350 utility locators.
- Took over the Damage Prevention and training department, overhauled new hire training process to increase touch points and vetting, added field and remote audits.
- Currently vetting new ticket management software to improve locator experience, reduce damages, drive efficiency, accurate billing, and lower operational costs.

VP, Networks, Gateway Fiber, 02/2024 – 05/2025

- Spearheaded product enhancements including 2G business internet and 8G enterprise solutions for cell towers and MDUs.
- Co-led expansion into multiple new markets, collaborating with Sales & Marketing to drive go-to-market strategies across Missouri, Minnesota, and Massachusetts.
- Built and scaled IT, GIS and Network Engineering teams to meet aggressive growth model while maintaining %99.99 and NPS score of 69.
- Acted as executive sponsor for cross-company network integrations, aligning infrastructure and operations across three jointly owned entities.

Regional Director, Field Services, Everstream Solutions, 3/2021 – 02/2024

- Directed all OSP/ISP installation/maintenance/restoration in Missouri, Michigan, Indiana and Southern Illinois.
- Led talent acquisition and workforce optimization across multiple markets, ensuring operational scalability and performance.
- Led vendor selection for engineering, construction and maintenance vendors. Negotiated pricing, timelines and expectations, conducted weekly and monthly readouts vs KPI guidance.
- Developed best practice documentation for OSP engineering, construction standards, and post-construction documentation, enhancing build quality and compliance.

Senior Manager, Field Services, Lumen Technologies, 01/2018 - 03/2021

- Collaborated with General Manager to build and execute annual market business plan for St Louis and Springfield, Missouri markets.
- Led integration of Level 3, Qwest, and CenturyLink networks across Missouri and Illinois to expand fiber footprint and streamline deployments.
- Revitalized organizational culture by fostering alignment, clarifying roles, and instilling high-performance expectations across legacy teams.

OSP Engineer II, Lumen Technologies, 09/2014 – 01/2018

- Designed and implemented 13 metro switched Ethernet rings and completed over 125 Enterprise builds.
- Successfully executed 200-mile UPRR high speed rail relocation with zero service interruptions.
- Engineered and built metro fiber ring in Bloomington, IL to support 100G deployment for State Farm Insurance.
- Served on a 10-person leadership team tasked with developing company-wide OSPE best practices, reducing network build times by 30%.

Senior Field Technician, Level 3 Communications, 05/2000 – 09/2014

- Strong background in optical transport systems, Ethernet, and critical infrastructure(Power/HVAC).
- Held TS/SCI clearance for secure operations and customer relations.
- Selected for Tiger Team leading the relocation of a 35,000 sq. ft. data center in London, England, ensuring zero downtime and full client continuity.

Professional Summary

Experienced Professional Engineer with over 20 years at Wade Trim, specializing in underground utility infrastructure, site development, and survey.

Professional Experience

Wade Trim – Flint, MI

2019 – Present

Senior Vice President, Industrial, Commercial, & Energy Market Segment Lead

- Lead strategic initiatives across industrial, commercial, and energy sectors
- Create multidisciplinary teams in survey, site development, natural gas, and power projects.
- Responsible for the P&L related to the Industrial, Commercial, and Energy Market Segment
- Development of key growth areas as directed by Chief Officers

Wade Trim – Flint, MI

2013 – 2019

Vice President Energy

- Development of Energy Market Segment
- Responsible for client development and growth
- Created client specific teams built for long term client service
- Drive safety and quality through Energy Market

Wade Trim - Flint, MI

2007 – 2013

Project Manager/Professional Engineer for Site Development

- Executed residential, commercial, and industrial site development projects
- Developed proposals and cost estimates necessary to respond to client RFPs
- Performed QAQC for adjacent Project Managers
- Developed and evaluated Designers and EIT's

Wade Trim - Flint, MI

2005 – 2007

Staff Engineer for Site Development

- Completed civil engineering related tasks
- Work with survey team to collect field data
- Performed MISS Dig requests
- Utilized CAD software to develop plan-sets

Education

2003 Michigan State University
BS Civil Engineering

Licensure

Licensed Professional Engineer
Michigan, Pennsylvania, Wisconsin,
Kentucky, West Virginia, Florida

BRIAN DREESEN

PROFESSIONAL SUMMARY

Seasoned Director of Operations at USIC overseeing a staff of 1,500+ with a proven track record in enhancing operational efficiency and profitability through expert risk mitigation and process improvements. Demonstrated leadership in fostering interdepartmental collaboration and driving continuous growth. Excelled in customer relationships and regulatory compliance, ensuring optimal financial performance and organizational excellence.

EXPERIENCE

Director of Operations

May 2006 - Present | USIC, Waukesha, WI

- Reviewed financial information and adjusted operational budgets to promote profitability.
- Planned and monitored day-to-day running of business to facilitate smooth progress.

Relevant Administrative Experience

1995-1997: ASCE Michigan Technological University Student Chapter – Joined the American Society of Civil Engineers Student Chapter at Michigan Tech after being involved with the Chapter for several years prior with the Concrete Canoe and Steel Bridge teams. In the 1996-1997 year, I was the Vice Chair of the Chapter.

2003-2005: ASCE Saginaw Valley Branch – Created the American Society of Civil Engineers Saginaw Valley Branch, as the Mid-Michigan area was missing a local group to connect with. This required working with the Michigan Section to allocate funds and working with the National organization to formally recognize the new Branch.

2005-2011: ASCE Michigan Section – Joined the American Society of Civil Engineers Board of Directors in 2005 as the Treasurer, going through the ranks of Secretary, Vice Chair, President-Elect, President, and Past President for the organization. As a Director, we provided direction for the American Society of Civil Engineers Michigan Section, also including each of the 7 Branch organizations, including financials, base governance, and provided direction of the Executive Assistance.

2008-Present: MISS DIG 811 – Was appointed to the Board of Directors for Miss Dig 811 in 2008, after sitting on the committee that developed the ‘Design Ticket’ for engineers from 2003-2007. Have been elected the Treasurer, and Vice Chair with the Executive Committee, and I am currently the longest-standing elected Board of Director for Miss Dig 811. As a Board of Directors, we provide direction for the CEO, both fiscally and for corporate governance. Hiring and evaluating the CEO, defining company strategies, ensuring legal compliance, overseeing financial decisions, and managing board members.

SAMUEL HERMAN

Experience

Chief Operating Officer

May 2010 – Present

Milenium Inc.

Milenium Inc. specializes in trenchless technology, directional drilling, pipe bursting and hydro excavation. Samuel joined the family-owned company in 2010 and steadily grew into executive leadership:

- **Operational leadership:** Directs day-to-day operations for a company of 51–200 employees and annual revenues estimated at \$50–100 million. Responsible for budgeting, procurement, safety programs and regulatory compliance.
- **Telecom infrastructure projects:** Oversees deployment of underground fiber-optic and conduit systems across Michigan, using directional drilling and other trenchless methods. Coordinates crews, equipment and permitting to ensure on-time, on-budget delivery.
- **Quality and transparency:** Implemented real-time project-tracking systems and daily safety audits that provide clients with clear progress updates and reduce workplace incidents.
- **Business development:** Negotiated contracts with major telecommunications clients, expanding the company's customer base and helping to pass fiber to more than 50,000 houses.
- **Concurrent project manager:** Has also served as project manager since 2015, directly managing complex underground construction projects and mentoring field crews.

Co-Founder & Operations Lead

2023 – Present

Prime-One.Net

Prime-One Net is a community-focused fiber-optic internet provider. Samuel co-founded the company with Alexander Baciu to bring fast, reliable internet to underserved communities. His contributions include:

- **Company creation:** Conceived and launched Prime-One Net after experiencing poor connectivity; built the network from the ground up with a small team.
- **Customer-first operations:** Designed support processes that connect customers with local service representatives rather than distant call centers.
- **Strategic expansion:** Led installation of 100 % underground fiber-optic infrastructure and achieved service to more than 100 households in the first year.
- **Community engagement:** Sponsored local organizations and partnered with the Saline Chamber of Commerce to promote digital inclusion.

Chief Executive Officer

2023 – Present

Lendr (Lendr Rental)

As CEO of Lendr, a sharing-marketplace for renting items and equipment, Samuel leads strategy and product development:

- **Platform development:** Oversees the design and growth of Lendr's peer-to-peer rental marketplace. The platform enables communities to rent everything from tables and tents to electronics, offering insurance protection, identity verification and low transaction fees.
- **Partnerships:** Secured partnerships with local organizations such as the Detroit Lions to enhance brand visibility and trust.
- **Growth strategy:** Focuses on user acquisition, customer support and marketing to scale the platform across Michigan and beyond. Introduced tiered business accounts and API integrations to attract small businesses.

About Me

Seasoned business executive with more than fifteen years of leadership experience in infrastructure, telecommunications and digital-platform development. As chief operating officer of Milenium Inc., Samuel has overseen large-scale trenchless construction and fiber-optic deployment, guiding the company from a small regional contractor to a multi-service provider with hundreds of employees. He is also co-founder of Prime-One Net, a local fiber-internet provider in Saline, Michigan, where he helped launch and expand a customer-focused gigabit network. In the digital space he serves as CEO of Lendr, a sharing-marketplace that connects communities through peer-to-peer rentals, and an investor in Milkster Creamery + Coffee, applying his operational expertise to consumer-goods ventures. Known for executive management skills, Samuel builds cross-functional teams, introduces innovative technologies and cultivates partnerships that benefit businesses and local communities.

Education

Eastern Michigan University

Bachelor of Business Administration, Marketing

Core Competencies

- Executive & operations management
- Strategic planning and business development
- Fiber-optic infrastructure & trenchless construction
- Telecommunications and Internet service provision
- Product & platform development (marketplaces)
- Project management and team leadership
- Customer experience & community engagement
- Partnership building and investor relations

Additional Information

- **Languages:** English (native), conversational Romanian.
- **Interests:** Emerging technologies, fiber-optic innovation, community development and youth sports.

Investor & Strategic Advisor

2024 – Present

Milkster Creamery + Coffee

Milkster Creamery + Coffee is a liquid-nitrogen ice-cream and specialty-coffee franchise known for its customizable "nicecream" concept. As an investor and advisor, Samuel:

- Provides capital and operational guidance to support expansion into new markets.
- Advises on marketing and customer-experience strategies, leveraging his technology background to enhance online ordering and in-store experiences.
- Helps identify locations and partnerships for franchise growth, such as openings in Colorado and partnerships with family entertainment venues.

Chief Media & Technology Director (Volunteer)

2024 – Present

Charity Cup

Charity Cup organizes annual soccer tournaments to raise funds for those in need. For the 2025 Detroit Soccer Tournament, Samuel served as the competition's Chief Media & Technology Director. In this role he:

- Managed media coverage, live streaming and digital promotion of the tournament.
- Coordinated technology infrastructure for event registration, scheduling and real-time score updates.
- Worked with other organizers to ensure an enjoyable, community-driven event that aligned with the organization's mission of service and fair play.
