

# MISS DIG 811 SAFETY IS IN YOUR HANDS. EVERY DIG. EVERY TIME.

Safe Digging Month is almost here! Each April, we come together to raise awareness about the importance of safe digging and protecting underground utilities- helping prevent service disruptions, costly damages, and serious injuries.

This statewide initiative is officially recognized by Governor Gretchen Whitmer, reinforcing just how important safe digging practices are for our communities.

## NEW: Safe Digging Month Toolkit

We're excited to share that MISS DIG 811 has officially launched a Safe Digging Month Toolkit, now available for download on our website! This toolkit was created to make it easy for you to participate in Safe Digging Month and help spread awareness in your community.

Inside, you'll find:

- Social media graphics
- Caption examples
- A posting calendar
- Safe digging messaging and key facts
- Branding guidelines
- And more

Whether you're a stakeholder, partner, or safety advocate, these materials are designed to help you promote safe digging practices quickly and effectively.

👉 Download the toolkit here:

## Stay Connected

We'll be sharing updates, reminders, and contest details throughout April—especially on our Facebook page.

Be sure to follow us on:

- Facebook
  - LinkedIn
  - Instagram
- 

## Why It Matters

Every digging project—big or small—requires a free 811 request before breaking ground. By working together and spreading the word, we can help ensure safer communities for everyone.

We encourage you to use the toolkit assets throughout April to remind others to contact 811 before they dig.

If you have any questions or need additional materials, please reach out to the Education Department at [education@misstdig811.org](mailto:education@misstdig811.org) or (248) 724-5851.

Thank you for helping us keep communities safe!

Best,  
MISS DIG 811
